Skimming device use is a re-emerging problem as recently reported in nearby Montgomery County, PA. Skimming devices are placed on point-of-sale (POS) terminals by criminals to capture cardholder data, and later fraudulently use stolen cardholder data for financial gain. Per FBI recommendations, inspect all ATM's, POS, and other card readers before using. Look for loose or damaged card readers, and do not use any card reader that seems unusual. Periodically monitor banking accounts and report any suspicious activity.
