

WARNING

Thieves are targeting vehicles with disability parking placards left in plain sight.

THEFT PREVENTION TIPS

(The following are suggestions only and will not guarantee theft prevention)

Lock all doors and windows.

If not parked in a disabled spot, do not leave placard displayed in vehicle.

Avoid leaving placard displayed in vehicle overnight.

Apply for a disability license plate (consult with physician).

If your placard is lost or stolen, you can replace it by visiting a Department of Motor Vehicle (DMV) Center and completing a "Person with Disability Parking Placard" application (Form MV-145A). This application can also be obtained online at dmv.pa.gov under the "Forms and Publications" section. No fee required to apply.
